

STABLE POWER AUTOMATIC VOLTAGE REGULATOR

STABLE POWER AVR 1KVA

approx.

- Input Voltage – 180-260VAC, 3wire, 1P
- Output Voltage – 220VAC
- Output Voltage Regulation - $\pm 5\%$
- Solid State Electronic / Relay Switching Circuit
- Built-in Output Voltmeter
- Built-in Surge Protection & Overload Protection
- Built-in Power On Delay Protection
- Built-in High Voltage Protection
- Built-in Low Voltage Protection
- Built-in Short Circuit Protection
- Percent Efficiency – 95%

STABLE POWER AVR 2-3KVA

approx.

- Input Voltage – 180-260VAC, 3wire, 1P
- Output Voltage – 220VAC
- Output Voltage Regulation - $\pm 5\%$
- Solid State Electronic / Relay Switching Circuit
- Built-in Output Voltmeter
- Built-in Surge Protection & Overload Protection
- Built-in Power On Delay Protection
- Built-in High Voltage Protection
- Built-in Low Voltage Protection
- Built-in Short Circuit Protection
- Percent Efficiency – 95%

STABLE POWER AVR 4-8KVA

approx.

- Input Voltage – 180-260VAC, 3wire, 1P
- Output Voltage – 220VAC
- Output Voltage Regulation - $\pm 5\%$
- Solid State Electronic / Relay Switching Circuit
- Built-in Output Voltmeter
- Built-in Cooling System - Forced Air
- Built-in Surge Protection & Overload Protection
- Built-in Power On Delay Protection
- Built-in High Voltage Protection
- Built-in Low Voltage Protection
- Built-in Short Circuit Protection
- Percent Efficiency – 95%

STABLE POWER AVR 10KVA

approx.

- Input Voltage – 180-260VAC, 3wire, 1P
- Output Voltage – 220VAC
- Output Voltage Regulation - $\pm 5\%$
- Solid State Electronic / Relay Switching Circuit
- Built-in Output Voltmeter
- Built-in Cooling System - Forced Air
- Built-in Surge Protection & Overload Protection
- Built-in Power On Delay Protection
- Built-in High Voltage Protection
- Built-in Low Voltage Protection
- Built-in Short Circuit Protection
- Percent Efficiency – 95%

STABLE POWER AVR 15-20KVA

- Input Voltage – 180-260VAC, 3wire, 1P
- Output Voltage – 220VAC
- Output Voltage Regulation - $\pm 5\%$
- Solid State Electronic / Relay Switching Circuit
- Built-in Output Voltmeter
- Built-in Cooling System - Forced Air
- Built-in Surge Protection & Overload Protection
- Built-in Primary Circuit Breaker
- Built-in Power On Delay Protection
- Built-in High Voltage Protection
- Built-in Low Voltage Protection
- Built-in Short Circuit Protection
- Percent Efficiency – 95%
